

Worldwide Dental Trauma and Emergency Callout Insurance

Emergency Callout – cover can be provided by any dentist worldwide who agrees to treat you, subject to the terms and conditions of the policy. You simply pay the emergency callout charge to the dentist concerned and collect a receipted invoice. This will then be processed through the practice for reimbursement from the insurers and you will be refunded the callout fee, minus the excess, up to the policy limits. This cover is to provide immediate pain relief only; no additional treatment fees can be claimed. You should return to the practice in normal hours for any further treatment required.

Dental Trauma – cover is provided should you be unfortunate enough to suffer a dental trauma, for example, as a result of a road traffic accident or an accident at home or at work. The insurers will settle the claim up to the policy limits and you will need to pay any relevant excess and shortfalls.

Hospitalisation – benefit is provided should you have to stay in hospital as a result of dental trauma.

Permanent Facial Disfigurement – benefit is provided should you be scarred on the neck or face as a result of the accident that also caused dental trauma, where scarring is still visible after 12 months of occurrence.

Oral Cancer – a payment will be paid upon diagnosis of oral cancer.

Redundancy Protection – premiums paid for up to one year (not included in the Registration and Insurance Schemes).

A leaflet giving details of the insurance cover, limits, excesses and exclusions is available at the practice.

Practice staff are permitted to provide you with information about the insurance that is included in your plan on behalf of Practice Plan Limited, the Insurance Administrator. However, practice staff are not permitted to give advice about the insurance, e.g. to compare this insurance with other dental insurance in the market. If you have any questions about this insurance then please call Practice Plan Limited on 01691 684128.

Why have we introduced Smile Plan?

As we hope you have already experienced, we are totally committed to providing all of our patients with the best quality dental care. We want to be able to spend more time with our patients and provide prompt treatment using the latest techniques and the best quality materials.

As part of our improved service to you, we want to be proactive about your dental health and for this reason six-monthly oral hygiene visits are included in the Smile Plan, as well as your regular routine examinations. Regular oral hygiene visits are essential to keep your breath fresh and to prevent gum disease. You may have very healthy teeth but, if your gums and the supporting structures are not healthy, you run the risk of losing teeth and perhaps contracting infections, which in turn can cause complications such as heart disease and diabetes.

This combined preventative programme is proven to be the best way of ensuring long term dental health. Over time, patients who participate in a preventative programme of regular examinations and oral hygiene visits, such as those offered by our Smile Plan, are shown to have a much reduced need for treatment.

Do I need to be dentally fit to join?

No, there is only one rate for everyone regardless of the problems you may have suffered in the past. You are not assessed on the state of your mouth and you do not have to undertake any expensive courses of treatment in order to be accepted.
